## **The challenge**

AGUILA Technologies is an independent high-tech company, specializing in small-size, low-power consuming communicating electronic systems (Machine to Machine), including in particular geolocation. Recognized for its quality work and expertise, the company has unique expertise in all steps of producing technological products. More than 55 000 products exploit today a technology developed by AGUILA.

Our company has completed projects in several high-growth areas of the likes of:

- Intelligent Transportation Systems (ITS) and Logistics
- Environment, nature and precision agriculture
- Medical and e-health
- Industry

## **The solution**

TBD
