

The ESA Business Incubation Centre in Darmstadt, Germany, was founded in 2007 and is managed by Centrum für Satellitennavigation Hessen (cesah). The centre offers business start-up support as well as technical expertise in different space related areas, and in particular in satellite navigation, data systems, software systems and navigation test environments.

etamax space GmbH

etamax space has developed an innovative mobile flood monitoring system that uses satellite navi.

About etamax space GmbH

The G-WaLe 'floaters' is the first mobile water measurement system for rivers that applies global navigation satellite system (GNSS) technologies to report the water level of an endangered river-zone in near real-time.
