About Urbancontext GbR

A new tool in order to find the perfect living space: After entering preferences such as centrality, number of bars or green spaces, the app will display perfect areas on a map and immediately show free houses or apartments. The mobile application will allow to visit potential spaces and experience the area within an Augmented Reality environment.

The challenge

Find your perfect new neighborhood/living space

Intuitive tool to augment the search (and living) experience

State-of-the-art research guarantees perfect preference-location match

State-of-the-art technology guarantees high precision of location services.

The solution

Potentialspaces is hosted at ESA Business Incubation Centre (BIC) Darmstadt, run by the German company cesah. This has provided the opportunity to consult ESA experts who have supported with technology insights and ideas to improve the system.

In addition, especially the support provided by cesah in relation to general business activities has been very helpfu
