

ESA Business Incubation Centre in Noordwijk, The Netherlands, was opened in 2004 and is managed by SBIC Noordwijk B.V. The centre offers business start-up support as well as technical expertise in most areas of space technology and know-how. Located at the Space Business Park near to ESTEC, the largest ESA site and the scientific and technical heart of ESA, ESA BIC Noordwijk promotes the exchange of knowledge between advanced technology and space activities, as well as the exchange of technology and expertise between space programmes and terrestrial applications.

## About Avy

Avy develops innovative aircraft to save and improve the lives of humans.

It is not a helicopter, an airplane or a drone but it does combine the best of all of them.

Flexibility, efficiency, a very long range and a large payload give possibilities to a wide variety of life saving purposes.
