

ESA Business Incubation Centre in Noordwijk, The Netherlands, was opened in 2004 and is managed by SBIC Noordwijk B.V. The centre offers business start-up support as well as technical expertise in most areas of space technology and know-how. Located at the Space Business Park near to ESTEC, the largest ESA site and the scientific and technical heart of ESA, ESA BIC Noordwijk promotes the exchange of knowledge between advanced technology and space activities, as well as the exchange of technology and expertise between space programmes and terrestrial applications.

About Toogethr

Toogethr is an HTML5-based mobile service allowing you to offer rides and to find rides. To your home, work, a festival or a different place. With friends and colleagues. With friends of friends. Where and when it suits you. Connecting your Toogethr account to your online social accounts increases the trust required for this service.

The challenge

As building a critical mass of users is essential to the success of such services, Toogethr has first launch a basic service. More advanced features, automated payments and dynamic rideshare options have been added at a later stage.

The solution

With Toogethr, you can substantially lower the cost of your mobility. As a driver you can request a financial contribution for the ride. Toogethr will take care of the payment between passenger(s) and driver. At the same time, it lowers congestion, and reduces

CO2 emissions.
