

ESA Business Incubation Centre in Noordwijk, The Netherlands, was opened in 2004 and is managed by SBIC Noordwijk B.V. The centre offers business start-up support as well as technical expertise in most areas of space technology and know-how. Located at the Space Business Park near to ESTEC, the largest ESA site and the scientific and technical heart of ESA, ESA BIC Noordwijk promotes the exchange of knowledge between advanced technology and space activities, as well as the exchange of technology and expertise between space programmes and terrestrial applications.

Magnitude Space

Global insights through IoT connectivity at affordable cost

About Magnitude Space

Magnitude aims to provide affordable connectivity for sensor and IoT-related devices.

The main focus is on ease of use, and being able to provide a global IoT solution. The network is built up with small satellites, creating the possibility to have global coverage.

By rolling out a global localization and monitoring service, system integrators are able to expand their current business.
