About contagt GmbH

contagt is a spin-off from University Mannheim. The startup was founded in 2013 and specialized in indoor navigation and app development. contagt's founder team consists of Stephan Brandt (CTO), Johannes Britsch (CEO), Niklas Bartz, and Johannes Schudt. Together our mission is to create the smartest way to welcome visitors and manage buildings.

The challenge

The solution

contagt offers a commercial indoor navigation platform. The platform contains native apps for Android and iOS, a web interface, SDKs, and a REST API. contagt supports localization via bluetooth beacons, WiFi, GPS, sensor fusion, and QR/NFC markers. Indoor maps are provided as downloadable guides which can be managed by a web-based backend. Guides include access restriction options and features can be extended by plugins.
