

The ESA Business Incubation Centre in Harwell, UK, started its operations in 2011 and is managed by the Science and Technology Facilities Council (STFC). It is located at Harwell Campus, a world leading science, technology and business campus based in South Oxfordshire with more than 4,500 researchers, engineers and innovators from over 150 high-tech organisations, and a focal point and cluster for the UK's rapidly growing high-tech space community.

About Satsafe

By 'mashing up' sensor, location and timing information whilst exploiting new and exciting loT communication networks able to penetrate deep into buildings, we deliver accurate, timely and – most importantly – relevant and useful information right into the palms of those who need it most.
