About go11save AG

Objects secured by Criftex® are protected against undetected access by an intelligent combination of satellite-based traceability, acoustic and visual alerts on the object and through a mobile app, a service hotline, and other features.

The challenge

Every day, millions of people - including both consumers and companies - are affected by stolen or damaged cargo and luggage. The resulting losses run into the billions! To address this problem, go11save AG has reinvented cargo and luggage security.

The solution

The unique, patented sensor textile Criftex® will make it much more difficult to steal containers and their valuable cargo. Its unique properties can also offer comprehensive damage prevention.

Avert damage with Criftex® PREVENTION

Monitor damage with Criftex®SAT

Track damage with Criftex® APP

Report damage to Criftex® SERVICE

No other family of solutions on the market offers a comparable level of protection. Meanwhile, Go11Save AG is already developing other products for the future with its partners at the European Space Agency.
