

The ESA Business Incubation Centre in Harwell, UK, started its operations in 2011 and is managed by the Science and Technology Facilities Council (STFC). It is located at Harwell Campus, a world leading science, technology and business campus based in South Oxfordshire with more than 4,500 researchers, engineers and innovators from over 150 high-tech organisations, and a focal point and cluster for the UK's rapidly growing high-tech space community.

About Micronanics

Micronanics provide laser micro-machining services, laser cleaning services and operates the Laser Solutions Centre at Harwell. Micronanics has the ability to machine most materials with micron resolution, and designs and builds scientific and production tools both with and without lasers, including bespoke vacuum systems.
