About EV8 Technologies

EV8 is a Joint Venture that brings together...

...a decade of IP + a leading team + proven technology development

KEARNEY

Challenges to transition

Businesses and consumers face challenges to understand when and how to transition to EVs; after the transition, they face new challenges we can help to solve

Customer journey and challenges

Should I transition to EVs?

Can I switch to EV without compromising service?

Which vehicles should I switch first?

Will I save money or will it cost me? How much will I save?

Which EVs are suitable?

Will battery range compromise my daily operations?

Do I need new infrastructure?

How do I transition?

How do I manage energy distribution and connectivity?

How do I source electricity?

How do I manage electricity in my facilities /home?

How do I optimize my operations?

Can I save or make money while charging my EVs?

How do I manage multiple charge points for various EVs?

How do I specify hardware in my facilities / home (storage, PV, CHP...)?
